“Congratulations on another beautiful, well written,impressive Paducah Life. The issue I received yesterday is once again an all-around WOW!!

I'm always impressed with the talented writers you uncover in our immediate area. Who would expect to find so many fine authors with ties to Paducah?

Constance Alexander, Herbert Martin, Rollie Bartlett, Nancy Backus and Judge Bill Cunningham immediately come to mind when I think of some of the authors showcased in Paducah Life in the past. And the current edition's double whammy with poems by students Samantha Smith and Keith Hawkins was particularly powerful and moving.

Thank you for regularly opening our eyes to the brilliance around us!”

“I have enjoyed each issue of Paducah Life! The quality of the magazine, from the topics to the layout and design, is top notch. This is one publication that I not only read from cover to cover, but I go back and re-read.”

“A sincere thanks to you for the splendid article featuring our family in your magazine. Incredibly written and photographed, we have received numerous comments and compliments from readers in the Paducah area, Florida, Alabama and California!

We enjoy your magazine and the positive way you showcase our area. Thank you, again, for this honor.”

“Your editorial was so inspiring! You are certainly filled with gratitude for each day, and you help all of us to duplicate your belief. It is always something to look forward to when your magazine arrives at my doorstep. First of all, after the editorial and the major stories, I look to see if any of my former friends or their children or grandchildren are in the news. Since my graduation date was 1932, probably not too many are still living in Paducah.

Thanks again for a wonderful magazine. Just the title brings back many endearing memories.”
